ABOUT DISQUIET MEDIA

Founded by composer Michel van der Aa in 2010, Disquiet Media is a multimedia label that embraces unfurling technologies in a wide spectrum of the arts. Based in Amsterdam, it focuses on compositions and music-theatre works that are firmly rooted in twenty-first century life.

Combining staging, film images and soundtracks, composer and director Van der Aa pushes the boundaries of all his media. Drawing on a unique, layered vocabulary, his music has an expressive power and range that place him firmly in the vanguard of new music.

The catalogue will initially centre around Van der Aa's work. Later it will extend to other like-minded artists who, like Van der Aa, explore the exciting possibilities offered by new media, including interactive techniques. Cutting-edge interactive performance broadcasts are set to follow in spring 2011.

WHERE TO PURCHASE

The Disquiet Media catalogue is released in various media. Visit the disquietmedia.net webshop to purchase CDs, DVDs and high quality downloads, and enjoy free streaming of the entire catalogue. CDs and DVDs are also available in retail stores worldwide, while external sites such as iTunes, Amazon and eMusic offer digital downloads.
